The book is great and fantastic. It is written in straightforward words and phrases rather than difficult to understand. You won't really feel monotony at any time of your respective time (that's what catalogues are for regarding should you question me).

This sequel to the award-winning *Water Beds: Sleeping in the Ocean* (2007 Teacher s Choice 2005 Mom s Choice) takes readers on an around-the-world boat ride to learn how mammals sleep in or around nine major rivers of the world on all continents except Antarctica. Row down the Mississippi and watch two river otters slip into a hollow tree or look to the bank of the Brisbane River as a platypus pops into a hole and disappears into a narrow tunnel. Told in a soothing style, this book serves as a bedtime/naptime story for younger children or an animal geography book for older children. Adults may learn something, too! The For Creative Minds education section features a World Map.
