

Collected papers Volume 6

By Osborn Zoological Laboratory

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 126 pages. Dimensions: 9.7in. x 7.4in. x 0.3in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1921 Excerpt: . . . which entitles him to rank as the first of real botanists in point of time. 6 With the Greeks, then, biology emerged from the shadows of the past and took concrete form--a fact which apparently the discerning mind of Aristotle appreciated since, though frequently referring to the ancients, he writes: I found no basis prepared; no models to copy Mine is the first step, and therefore a small one, though worked out with much thought and hard labor. It must be looked at as a first step and judged with indulgence. Before leaving the Greeks we must mention Hippocrates (460-370 B. c), the Father of Medicine. Writing a generation before Aristotle, at the height of the Age of Pericles, Hippocrates crystallized the knowledge of medicine into a science, dissociated it from philosophy, and gave to physicians the highest moral inspiration they have. To him medicine owes...
