When a Berklee College of Music professor is called in to conduct emergency repairs to Pink Floyds equipment during a world tour, he seizes the opportunity to steal their files, pirating the most recognized sound effects and backing tracks in rock and roll history. For Pink Floyd fans and music enthusiasts who have the passion for truth, this controversial story is now revealed. Tribute: The Dark Side of The Mood is more than just a story about life in a tribute band but an educational journey of life lessons which exposes a colossal theft that millions were kept in the dark about until now. Its the true story of youthful idealism vs. greed and corruption from someone who went through it all and involves, among others, a professor at the Berklee College of Music who was also a Kurzweil employee AND how Pink Floyd was robbed and didnt even know it!
