

Personal hygiene

By Frank Overton

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 46 pages. Dimensions: 9.4in. x 7.3in. x 0.3in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1913 Excerpt: . . . every part of the body. Red Blood Cells. --A great many tiny round bodies float in the liquid of the blood. Most of these bodies are red, and so they make the blood appear red. These red bodies are called red corpuscles, or red blood cells. Their use is to take up a part of the air of each breath, and to carry it through the body. White Blood Cells. --A few of the bodies which float in the blood are whitish or colorless, and are called white corpuscles, or white blood cells. One of their uses is to destroy disease germs which may be in the blood and flesh. Every day some disease germs are breathed into the body with dusty air, some are swallowed with food, and a few are rubbed into cuts and scratches on the skin. But most of Red Blood Cells....

Reviews

A top quality ebook and the typeface used was interesting to learn. This can be for all who statte that there had not been a well worth reading through. I am just pleased to tell you that this is basically the very best ebook i actually have go through in my individual life and can be he finest book for at any time.

-- **Mr. Carol Bergnaum IV**

This publication will not be straightforward to begin on studying but quite fun to see. It really is basic but shocks in the fifty percent of the ebook. I realized this ebook from my dad and i advised this pdf to learn.
