

How Do Animals Adapt?

By Niki Walker, Bobbie Kalman

Crabtree Publishing Co, Canada. Paperback. Book Condition: new. BRAND NEW, How Do Animals Adapt?, Niki Walker, Bobbie Kalman, This title is suitable for ages 6-12. Certain sea slugs have developed a remarkable defensive adaptation - they can use the stinging cells of the sea anemones they eat to protect themselves. Whether adapting over millions of years or in the blink of an eye, this book examines the ever-changing world of animals. Children will thrill at discovering: why animals need to adapt; animals that can 'see' using sounds; how animals use camouflage and mimicry to protect themselves; and how wild animals have adapted to habitat loss and learned to live in cities.

Reviews

This publication is amazing. It is definitely basic but shocks in the fifty percent of your publication. You wont feel monotony at anytime of your own time (that's what catalogues are for concerning if you question me).

-- Prof. Kirk Cruickshank DDS

This kind of book is every little thing and taught me to looking ahead of time and a lot more. I am quite late in start reading this one, but better then never. I found out this book from my dad and i encouraged this pdf to find out.
